Wilson County reports the 12th Confirmed case of COVID-19

There is a second confirmed case of COVID-19 at the Frank M. Tejada Texas Veterans Home. This case has been diagnosed as transmission type: person to person close contact with a positive patient. The individual is currently being treated at a San Antonio Hospital.

It is my further understanding that because of the second positive case at this facility, that all residents and all staff will be tested.

We will continue to monitor the situation for any new developments.

Please continue to practice social distancing measures as well as wearing a mask when venturing outside your home.

“Stay Home-Stay Safe”

Additional Covid-19 information:

Information about COVID-19, as well as coronavirus-related Floresville city office closures and restrictions are available at www.floresvilletx.gov
