

**Come by the Lions Club booth at the Wilson County Health at the Floresville Event Center on Saturday, August 12 from 9am - 3 pm!**

*You can visit with the President and Board Member of the Lions Sight Research Center. Their new video features the story of a sweet 2-year old Floresville girl who was able to be helped by the services of the Lions Club.*

*Bring you unused glasses and frames for recycle. We will send them on to the Lions Club recycle center where they will be re-ground and set into used frames for someone in need worldwide. Visit with a Lions member to hear about what we do to serve our community,*

*Learn about the Lions Club Camp in Kerrville that offers a real camping experience to mentally and physically handicapped children at no cost to the family.*

*We will be offering screening for your toddler's eyes that will immediately show any need for a medical/optometry appointment.*

*Beginning around 10:00, our special guest will arrive. John Douglas from the Lions Guide Dogs of Texas is coming with a client and his/her working guide dog.*

We are excited to show Wilson County how the Lions Club is involved in the health of our community.
